AN ECOSYSTEM DESIGNED FOR YOU

LEADERSHIP CARE THAT UNLEASHES PERFORMANCE

Leadership is not a solo sport. Right now, it's under real pressure. Engagement is at an all-time low. Trust between employees and leadership is fracturing. And leaders face a compounded reality given the external chaos, financial pressures, and workforce challenges.

Leaders who know how to build trust while managing the challenges, creating belonging while activating high performance, are in demand.

The Cultiv8™ Leadership Circle is where that kind of leader is built — in community, with rigor, and with care. **Learn more** about our program from our founder.

This is not a workshop. It's not a webinar series. Cultiv8™ Leadership Circle is a three-month guided journey alongside a carefully curated circle of your peers in a shared learning experience that doesn't look away from the hard stuff.

We name the realities. We create space to grow through them. Together.

The Cultiv8™ Circle Ecosystem includes:

- A Science-Backed Assessment
- Customized Online Learning
- Live Group Coaching
- A Supportive Peer Cohort
- Optional 1:1 Coaching

Transform Leadership.
Strengthen Teams.
Succeed for Good.

You'll begin with a 360° view of your leadership

Before we go anywhere, we get honest about where you are. understanding which of the 8 core traits come naturally to you, which don't, and what the gap looks like between how you intend to lead and how others actually experience your leadership. Your hidden strengths. Your highest-impact growth areas. All of it. It's data with direction.

What You'll Experience

A Science-Backed Assessment

Our scientifically-backed research has identified the traits inclusive leaders share regardless of industry or title.

Even if some of these don't come naturally, we'll help you build the competencies to close the gap between how people experience you and the leader you're becoming.

Customized Online Learning

Self-paced modules tailored to your assessment results that include micro-lessons from our CEO. Build your leadership depth across the inclusive leadership traits, amplifying hidden strengths, and reducing performance gaps.

Live Group Coaching

Monthly live sessions with an expert coach to deepen insights, apply learning in real time, and navigate the complex leadership challenges you're actually facing. This is where the work gets pressure-tested and the growth gets real.

A Supportive Peer Cohort

You'll be part of a facilitated, carefully curated circle of leaders who understand your experience and are committed to leading with care. You'll join our PG alumni in a private community once the program ends.

Optional 1:1 Coaching

For leaders seeking deeper, more intensive support: personalized coaching is available as an add-on. Go further, faster, with a coach in your corner.

Let's Ensure Alignment - For You and the Circle

Real growth happens in spaces where people feel safe, seen, and supported. That's why before you join, we invite you to a brief conversation. We want to make sure this program and this Circle is right for you, and if they're not, we have other powerful solutions.

Spots are limited. This is intentional. Every participant deserves the attention and depth this work is designed to deliver.

Let's Connect
